

A Phoenix Mecano Company

Date: 19th July 2023

Toxic Substances Control Act of 1976 (TSCA)

The new U.S. regulations published on January 6th, 2021 Environmental Protection Agency (EPA) per Toxic Substances Control Act of 1976 (TSCA) Section 6(h), are to restrict the import and use of five chemicals into the United States.

To implement the law, the EPA has published a list of chemicals suspected of being carcinogenic or reproductively toxic.

These are the following substances:

- | | |
|---|---------------------|
| - Phenol, isopropylated phosphate (3:1) (PIP 3:1) | CAS No.: 68937-41-7 |
| - Decabromodiphenyl ether (DecaBDE) | CAS No. 1163-19-5 |
| - 2,4,6-tri-tert-butylphenol (2,4,6 TTBP) | CAS No. 732-26-3 |
| - Hexachlorobutadiene (HCBD) | CAS No. 87-68-3 |
| - Pentachlorothiophenol (PCTP) | CAS No. 133-49-3 |

These pollutants listed above are not present in ROSE-standard products and are not used.

This declaration was created and issued on the basis of the laws and regulations applicable at the present time and to the best of our knowledge and current knowledge and is based on a query and confirmation of almost all upstream suppliers.

With best regards

A handwritten signature in black ink, appearing to read "i.A. Axel Brandhorst".
